Example from Main Window:

Onsite		Unload	
Date:	Time:	Date:	Time:
IN: 03/25/06	4:00 AM	03/25/06	7:00 AM
OUT: 03/25/06	10:00 AM	03/25/06	7:20 AM
Inbound Wash Tag #: 7457		Loc: Jetwash	
Last Wash: 03/23/06 10:00PM		33.0	25.0
Ranch PU: 03/24/06 11:00PM		8.0	

The tanker was washed on 3-23-06 10:00 p.m. (from wash tag).
The first milk was picked up on 3-24-06 11:00 p.m. (from manifest).

The milk tanker was on site at the processing plant at 3-25-06 at 4:00 a.m. and unloaded at 7:00 a.m. (information from the receiver).

QA Studio will do the math and will immediately alert the user that the time limit is over the set specifications so action can be taken.
